**IV. E-board IWB/IMS**

# License List - MagicInfo Premium Server

## **I. License List for MagicInfo Premium Server**

### **I. Charged License**

- I. MagicInfo Premium I Server**
- II. MagicInfo Premium S Server**
- III. MagicInfo Lite Server**
- IV. MagicInfo Premium Mobile**
- V. MagicInfo DataLink Server**

### **II. Free License**

- I. MagicInfo Premium I Server (5 LFDs)**
- II. MagicInfo Premium S Server ( conditional 60days, 5 LFDs)**
- III. MagicInfo Lite Server (25 LFDs)**

**DataLink license is divided from the MagicInfo Premium Server**

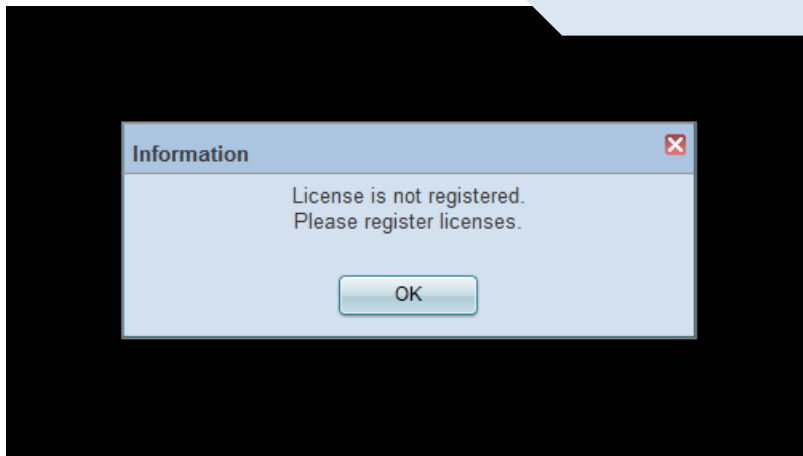

**DataLink License is entered to the DataLink Server from OCT. 2013**

# 0. Help

- ① After installing the latest Server version (above 2003.0 )
- ② No default license is included in the server.
- ③ The old license key(issued from [www.samsunglfd.com](http://www.samsunglfd.com) ) can't be used in the New Server version
- ④ The new License Key can be issued from <https://v3.samsunggsbn.com>
- ⑤ Refer to the SLM Guide document.

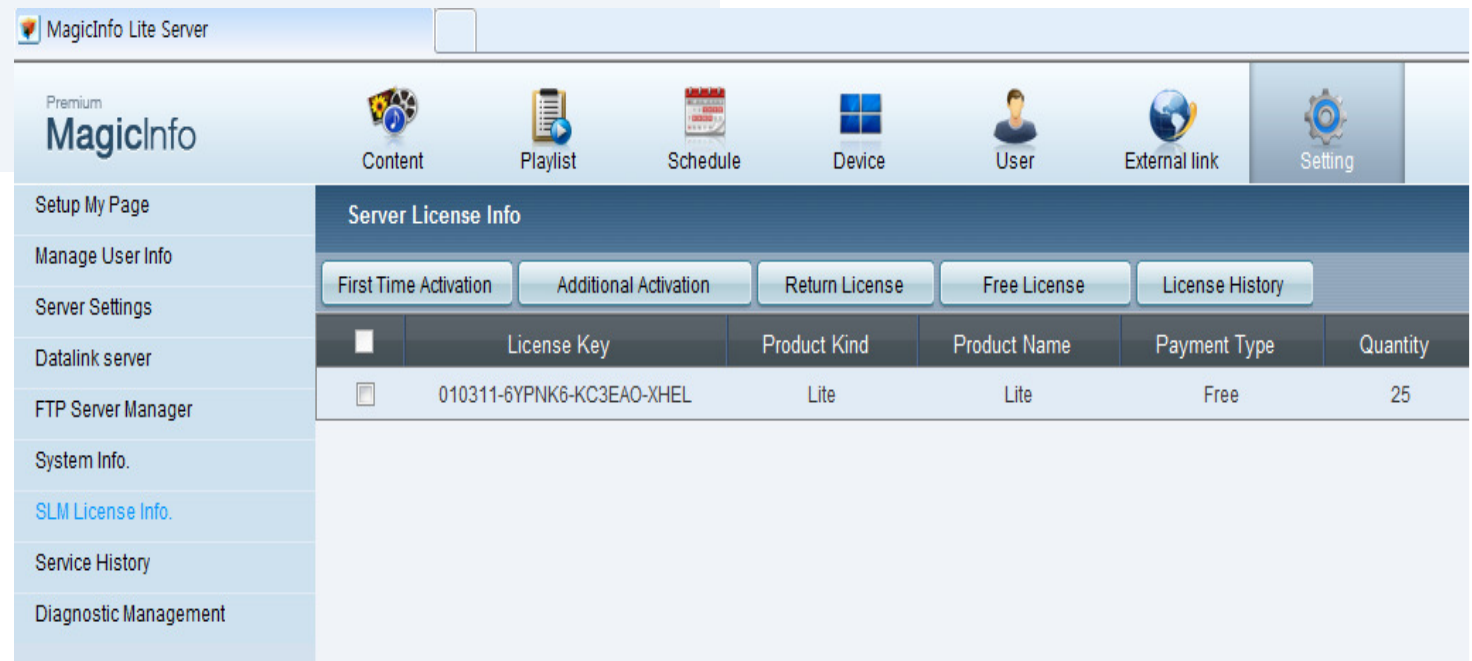

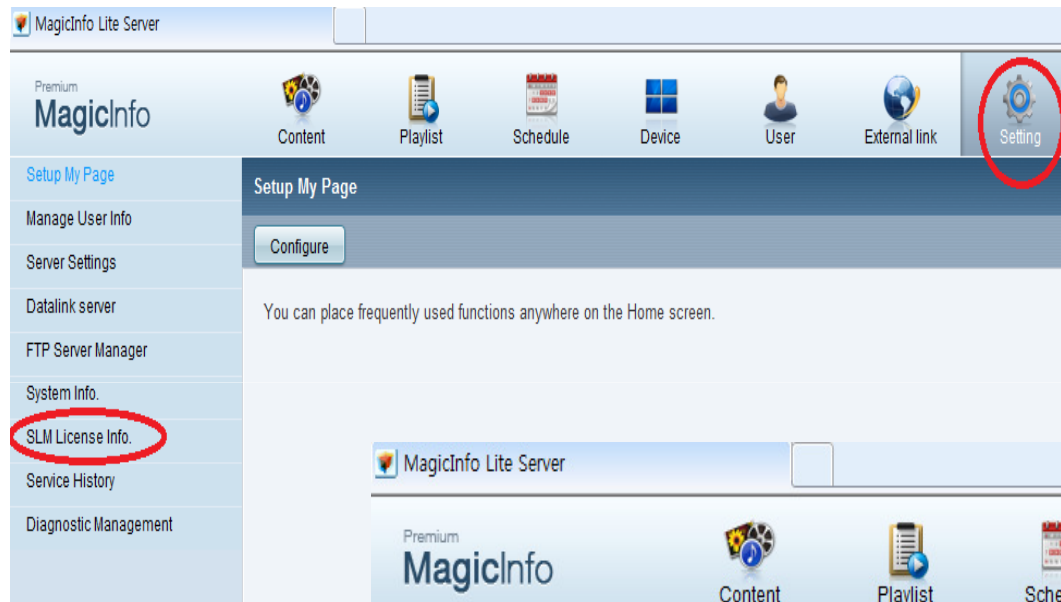

If you type `http://` your server ip:7001/MagicInfo, You can get this screen because you don't have any license.

Click OK. And follow the steps of register the license.

## 2. Start

- 1 Click Setting Menu ,and Click SIM License Info.
- 2 Show the Menu of License Manager

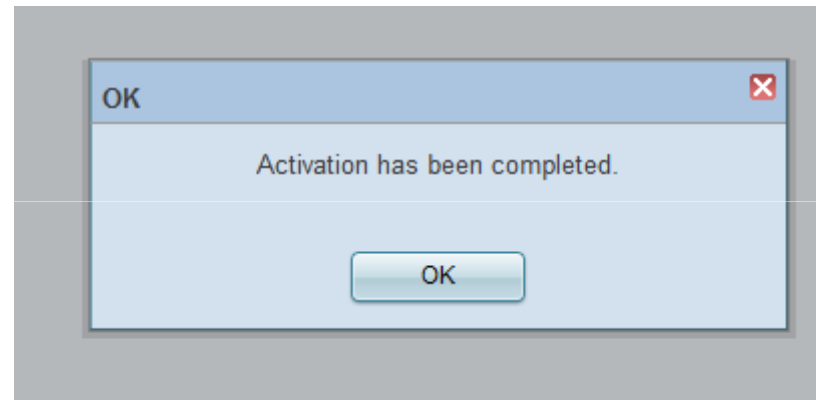

### 3. Activate the free license key(Free License)- OnLine

The Free License Key is not activated repeatedly  
VD SW support to activate the free License without logging in  
the SLM Server.

- 1 Click Free License
- 2 Select one of Product Name
- 3 Select "connected" of internet Connection ( if this pc is not networked, follow the Disconnected way )
- 4 Enter your data
- 5 Click Next , check the Success window and you can see the added license key

The screenshot shows the 'Free License' activation window. The 'Free License' tab is selected (1). The 'Product Name' dropdown is set to 'select' (2). The 'Internet Connection' is set to 'Connected' (3). The 'License Key' field is empty. The 'Company Name' and 'Division' fields are empty. The 'Address' field is empty (4). The 'Phone Number' and 'E-mail' fields are empty. The 'Next' button is highlighted (5).

The screenshot shows the 'Server License Info' table. The 'Free License' tab is selected. The table has columns: License Key, Product Kind, Product Name, Payment Type, Quantity, Start Date, and Exp. The first row is highlighted with a red circle.

License Key	Product Kind	Product Name	Payment Type	Quantity	Start Date	Exp
110110-CLK34X-Y64QZY-60FS	Premium-i	Premium-i	Free	5	2013-09-30 00:00:00	
010311-6YPNK6-KC3EAO-XHEL	Lite	Lite	Free	25	2013-09-30 00:00:00	

### 3. Activate the free license key(Free License)- OFFLine

The Free License Key is not activated repeatedly  
VD SW support to activate the free License without logging in  
the SLM Server.

- 1 Click Free License
- 2 Select one of Product Name
- 3 Select "disconnected" of internet Connection ( in case not networked or failed in connected )
- 4 Copy the license key and HW unique key, go to the SLM Site
- input license key and HW key in the SLM site, and then download the Activation key in the local.
- 5 Input the Activation key in the SW Program, Click Next

# License List - E-board Solution

## **I. License List for E-board**

### **I. Charged License**

#### **I. E-board IWB**

#### **II. E-Board IMS**

### **II. Free License**

### **III. Special caution**

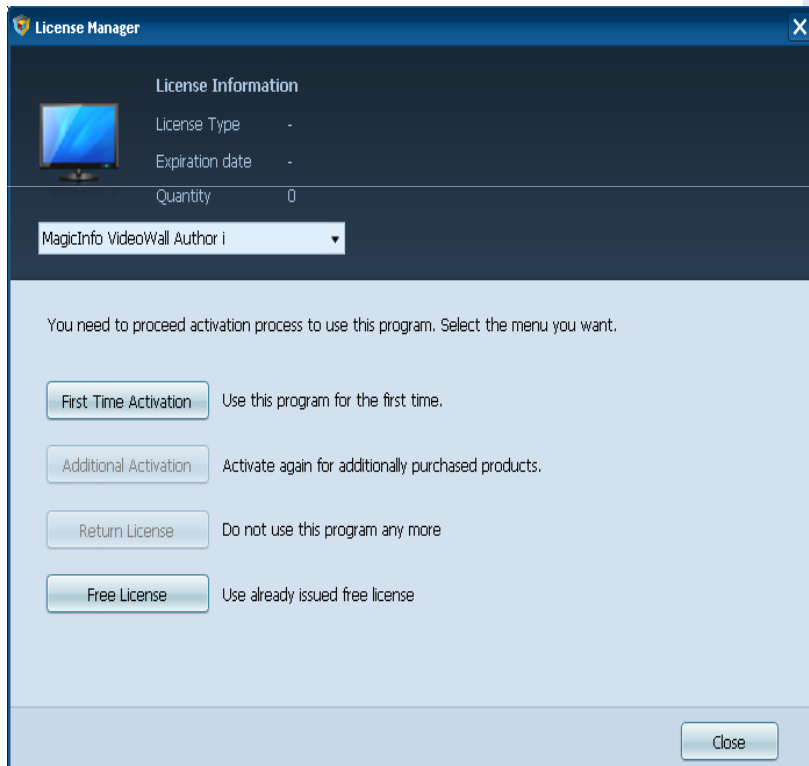

- I. Multi-Screen (IWB): Combine by Maximum 4 Ifds. Possible only in the Off-Line connection.**

**When you make the Activation Key in the SLM Server, select how many Ifds for the multiscreen.**

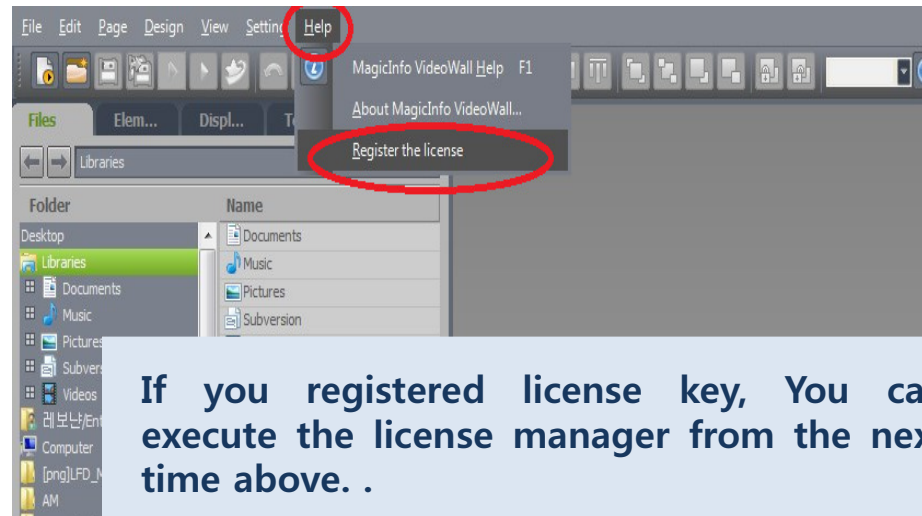

- I. If the license key of the IWB is on the same network, the license key of IMS doesn't need**

# 0. Help

- ① After installing the latest magicInfo application version (above 2003.0 )
- ② No default license is included in the server.
- ③ The old license key(issued from [www.samsunglfd.com](http://www.samsunglfd.com) ) can't be used in the New Application
- ④ The new License Key can be issued from <https://v3.samsunggsbn.com>
- ⑤ Refer to the SLM Guide document.

If you execute the MagicInfo solution You can get this screen because you don't have any license.

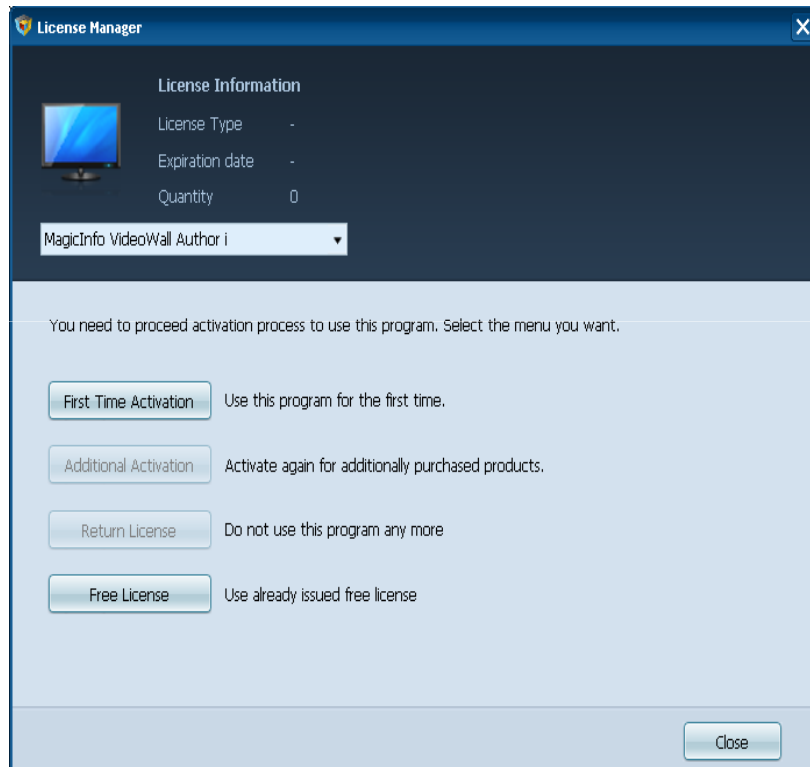

If you registered license key, You can execute the license manager from the next time above. .

## 2. Start

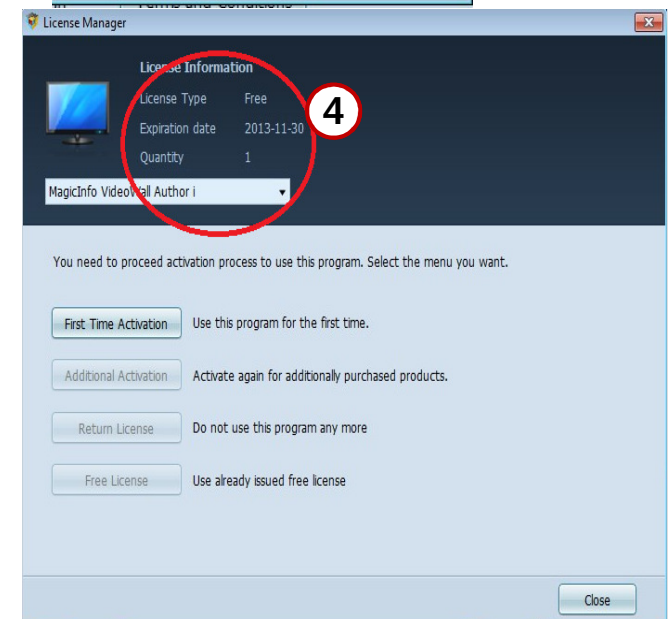

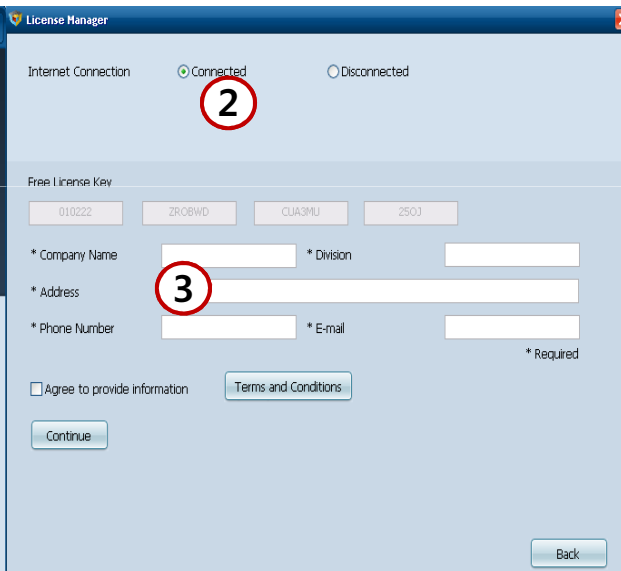

- ① Click the Help Menu ,and Click the License Manager
- ② Show the Menu of License Manager

### 3. Activate the free license Key-Online

The Free License Key is not activated repeatedly  
VD SW support to activate the free License  
without logging in the SLM Server.

- 1 Select one of product and Click Free License
- 2 Select "connected" of internet Connection ( if this pc is not networked, follow the Disconnected way )
- 3 Enter your data
- 4 Click Next , check the Success window and you can see the added license key

### 3. Activate the free license Key-Offline

The Free License Key is not activated repeatedly  
VD SW support to activate the free License  
without logging in the SLM Server.

- 1 Select one of product and Click Free License
- 2 Select “disconnected” of internet Connection ( in case not networked or failed in the connected way )
- 3 Copy the license key and HW unique key, go to the SLM Site  
- input license key and HW key in the SLM site, and then download the Activation key in the local.
- 4 Input the Activation key in the SW Program, Click Next

The image displays two screenshots illustrating the offline license activation process.

**Left Screenshot (Software Interface):**

- The **License Manager** window shows the **License Information** tab. The product **MagicInfo VideoWall Author i** is selected.
- The **Internet Connection** status is set to **Disconnected** (Step 2).
- The **Free License Key** (010221 7Q0FW7 QIWIN) and **H/W Unique Key** (693EC39F225F8428) are displayed. Both keys are circled, and the **Copy to Clipboard** button is highlighted (Step 3).
- The **Read Activation Key** button is highlighted (Step 4).
- The **Free License** button is highlighted (Step 1).

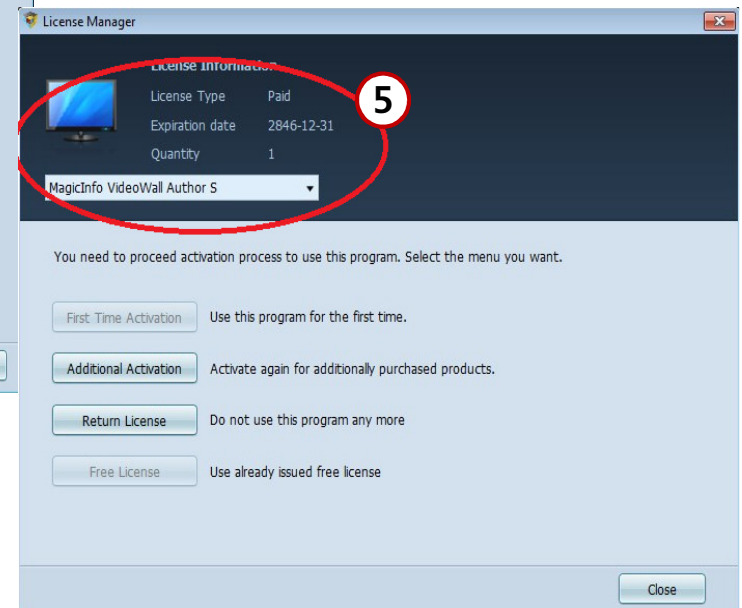

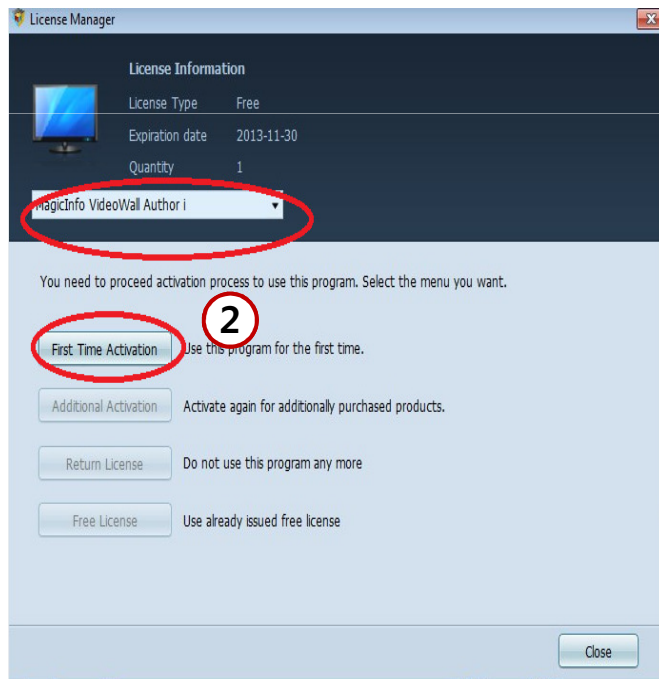

**Right Screenshot (SLM Website):**

- The **SLM** sidebar shows the **Request Activation Key** option under the **Activation** menu.
- The **Request Activation Key** form shows the **License Key** (0101110-CLKI4X-Y64QZY-60FS) and **Hardware Unique Key** (F20501CC220323B3) entered. Both keys are circled.
- The **License Search** button is highlighted.
- The **Result** shows **Success** and the **Download Key** button is highlighted.
- The **Activation Key** is displayed at the bottom.

### 3. Activate the charged license key(First time Activation )-online

To activate the charged license Key ( Not the free license key )

- 1 Issue the charge license key from <https://v3.samsunggsbn.com>
- 2 Select one of product and Click First Time Activation
- 3 Select “connected” of internet Connection ( if this pc is not networked, follow the Disconnected way )
- 4 Enter your license Key
- 5 Click Next , check the Success window and you can see the added license key

### 3. Activate the charged license key(First time Activation )- offline

- 1 To activate the charged license Key ( Not the free license key )
  - 2 Issue the charge license key from <https://v3.samsunggsbn.com>
  - 3 Select one of product and Click First Time Activation
  - 4 Select “disconnected” of internet Connection ( in case not networked or failed in the connection way )
  - 5 Copy the license key and HW unique key, go to the SLM Site
- input license key and HW key in the SLM site, and then download the Activation key in the local.
- 5 Input the Activation key in the SW Program, Click Next

The screenshots illustrate the offline activation process:
