

# MagicInfo Technical Guide

## Error code of the License Activation

All solution to have the license key

#### Error code list.

Error Code	Description	
0	No Error.	
1	System memory alloaction failed	
2	LMS server's response fails. Detailed information will	
	be given through error message	
3	Parameter of the function is NULL	
4	Incorrect parameter of the funtion	
5	Invalid encrypted algorithm used by LMS	
6	Incorrect password	
7	Decryption failed	
8	Communication with LMS server failed	
9	Initialization of HTTP client failed	
10	Delivery of HTTP request failed	
11	Online Activation should be executed before run	
	requested process	
12	Loading public key failed	
13	Generating Message Digest Context failed	
14	Initializing Message Digest failed	
15	Message Digest Update failed	
16	File loading failed	
17	File writing failed	
18	Size of file is smaller than expected one	
19	OS occuring error	
·	- L	

SAMSUNG

20	No file found	
21	The line consists of too many characters	
22	Activation Key format error	
23	Loading encryption library failed	
24	Socket error.	
25	Connection error because of excess Socket connection time	

## Error code displayed by the MagicInfo Server

Error Code	Description	
500	The error of MagicInfo server and DB	
700	The difference between the HW key in the Activation	
	key and the HW key of the Server PC	
900	The same kind of the License key Is registered	2 charged license key can't be registered. Try to do the addition activation.
800	The license Key has the problem.	
600	Activation process has the problem	
1000	The license module of MagicInfo Server has the problem	
4000	SLM SDK has the basic exception.	
19002	Activation error	

1000	LicenseKey is null in request Activation
1001	H/W Unique Key is null in request Activation
1002	LicenseKey is null in requestChangeActivation
1003	Old LicenseKey is null in requestChangeActivation
1004	H/W Unique Key is null in requestChangeActivation
1005	Product ID is null in requestCheckVersion
1006	Product Version is null is null in requestCheckVersion
1007	De Activation Key is null in requestDeActivation
1008	LicenseKey is null in request ReActivation
1009	H/W Unique Key is null in request ReActivation
1010	Error Message is null in UploadError
1011	ResponseCommand is not valid in ResponseActivation
1012	ResponseCommand is not valid in

	ResponseChangeActivation
1013	ResponseCommand is not valid in ResponseCheckVersion
1014	ResponseCommand is not valid in ResponseCompleteDeActivation
1015	ResponseCommand is not valid in ResponseDeActivation
1016	ResponseCommand is not valid in ResponseReActivation
1017	ResponseCommand is not valid in ResponseUploadError
1018	License Key is not valid in LicenseKeyverify
1019	Deactivation Key is not valid in DeActivationKeyverify
1020	Sign type is not specified
1021	Digital Signature value is null
1022	License value is required
1023	Hardware Key value is required
1024	There must be one or more product information
1025	Package product number and product code does not match the number of entries
1026	Invalid Signature Key Type in Activation Key Generation
1028	Digital Signature Error in Activation Key Generation
1032	Invalid AES Key Type
1033	AES Encrypt Error in Activation Key Generation
1034	Reserved words can not be used
1035	Interdict words can not be used
1050	ResponseCommand is not valid in ResponseGetActivation
1051	LicenseKey is null in request GetActivation
1052	H/W Unique Key is null in request GetActivation
1053	ResponseCommand is not valid in ResponseGetServerTime
1054	Product Install Type is null is null in requestCheckVersion
1055	LicenseKey is null in request GetSiteInformation
1056	ResponseCommand is not valid in GetSiteInformation
1057	LicenseKey is null in request GetActivationCount
1058	ResponseCommand is not valid in GetActivationCount
4001	Activation Key file not found in deactivationKey generation
4002	Activation Key IO exception in deactivationKey

	generation	
4003	Activation Key verify exception in deactivationKey generation	
4004	Activation Key invalid format exception in deactivationKey generation	
4005	License Key verify value false in deactivationKey generation	
4010	Activation Key Parser Load Error in Activation Handler Manager	
4011	Activation Key Parser Load Error in Activation Request Manager	
4012	Activation Key Parser Load Error in De-Activation Request Manager	
4020	Invalid AES Encrypt Type in Activation Key Verify	
4021	AES Decryption Error in Activation Key Verify	
4022	Activation Key Parser Load Error in Activation Key Verify	
4023	Get Text Error in Activation Key Verify	
4024	Digital Signature verification error in Activation Key Verify	
4025	Activation key value is empty in Activation Key Verify	
4026	Invalid Digital Signature Type in Activation Key Verify	
4027	Activation key is not included in the Sign Type	
4028	Activation key is not included in the Sign Value	
4029	Can not parse the message	
4030	Activation Key read Error in ActivationKeylO class	
4031	Can't found file in ActivationKeylO class	
4032	Activation Key save Error in ActivationKeyIO class	
4033	Fail to delete the activation key	
4050	ProductID Length inValid	
4051	ProductID includes specialLetters	
4052	Version check fail from LMS Server	
4070	Requested information to SLM Server was incorrect in Check Version	
4071	Received the Error message from SLM Server in Check Version	
4072	IO exception in CheckVersionRequestManager class (Deprecated)	
4073	Exception in CheckVersionRequestManager class (Deprecated)	
4074	Does not receive a response to a Check Version	

	Request
4075	Requested information to SLM Server was incorrect in The Upload Error
4076	Received the Error message from SLM Server in The Upload Error
4077	IO exception in ReportErrorRequestManager class (Deprecated)
4078	Exception in ReportErrorRequestManager class (Deprecated)
4079	Error reporting fail from LMS Server (Deprecated)
4080	Does not receive a response to a Report Error Request
4100	License Key format not valid
4101	License Key is not valid
4102	License key contain illegal argument
4201	activation key verification failed in DeActivation
4202	activation key parsing error in DeActivation
4203	activation file delete error in DeActivation
4204	Requested information to SLM Server was incorrect in The Request De-Activagtion
4205	IO exception in DeActivation (Deprecated)
4206	LMS communication Exception in DeActivation (Deprecated)
4207	LMS response error in DeActivation
4208	UTF-8 UnsupportedEncodingException in DeActivation
4209	Receive Error message from LMS Server
4210	De-Activation Key Generation Fail
4301	Invalid domain
4302	Invalid Hardware Key
4303	Unsupported Encoding type
4304	Input License Key and Response License Key do not match
4305	Not defined in the command message
4306	Required fields are missing
4307	Recieved Error message from SLM Server
4311	License verification failed in new Activation Key Request
4312	Does not receive a response to a new Activation Key Request
4313	Activation Key Verify Fail in new Activation Key Request
4314	Activation Key Parser load Error in new Activation Key

4315 Re	equest equesting activation error in new Activation Key equest error occurred on the LMS server in new Activation Key	
4315 Re	equest

	equest	
14371 II	ctivation Key Parser load Error in change Activation ey Request	
4322	ctivation Key Verify Fail in change Activation Key equest	
4323 Lie	cense value or Hardware Key value is null	
<u>4</u> 37 <u>4</u>	cense verification failed in change Activation Key equest	
4375	oes not receive a response to a change Activation Key equest	
1437h	equesting activation error in change Activation Key equest	
4377	rror occurred on the LMS server in change Activation ey Request	
14378	equesting activation error in change Activation Key omplete Request	
14374 II	rror occurred on the LMS server in change Activation ey Complete Request	
1 A 3 3 11	oes not receive a response to a change Activation Key omplete Request	
<i>1</i> /331	ctivation Key Verify Fail in change Activation Key omplete Request	
14337 II	ctivation Key Parser load Error in change Activation ey Complete Request	
14341 II	cense verification failed in Get Activation Key equest	
1 <u>434</u> 7	oes not receive a response to a Get Activation Key equest	
4343 Ac	ctivation Key Verify Fail in Get Activation Key Request	
4344	ctivation Key Parser load Error in Get Activation Key equest	
4345	equesting activation error in Get Activation Key equest	Update the server version to over 3001.12
4346	rror occurred on the LMS server in Get Activation Key equest	
4361 Ac	ctivation Key Verify Fail in new Activation Key Activate	
4362	put License Key and Response License Key do not atch	
4363 Ca	an not find the file in new Activation Key Activate	

	Activation Key Parser Load Error in new Activation Key
4364	Activate
4381	AS-IS Activation Key verification failed
4382	AS-IS Activation Key Parser load Error
4383	TO-BE Activation Key verification failed
4384	TO-BE Activation Key Parser load Error
4385	AS-IS License Key and TO-BE License Key do not match
4386	AS-IS Hardware Key and TO-BE Hardware Key do not match
4387	Can not find the file in change Activation Key Activate
4401	csv file contents empty
4402	csv file column size error
4403	csv file FileNotFoundException
4404	csv file IOException
4500	Requested information to SLM Server was incorrect. in the GetServerTime
4501	Received the Error message from SLM Server in the GetServerTime
4502	Received the null message from SLM Server in the GetServerTime
4600	Activation Key Verify Fail. (Critical Error)
4700	Requesting site information error in Get Site Information Request
4701	Error occurred on the LMS server in Get Site Information Request
4702	Does not receive a response to a Get Site Information Request
4721	Requesting error in Get Activation count Request
4722	Error occurred on the LMS server in Get Activation count Request
4723	Does not receive a response to a Get Activation count Request
7601	LMS Agent has been received from an undefined code.
7602	SDK has been received from an undefined code.
8001	InValid Model Type in Generation
8002	exception in Generation
8003	License key value is null
8004	License key Length inValid
8005	Exception in License Key Verify

### **SLM Server Return Error Code**

Error Code	Description	
11000	There is no License key.	
11001	There is no unique hardware key.	
11002	There is no De-Activation key.	
11003	There is no Product Id.	
11004	There is no Product Version.	
11005	There is no Error Message.	
11006	Product Type Parameter does not exist.	
11008	It has no company name in Installation Information.	
11009	It has no address in Installation Information.	
11010	It has no company phone number or company e-mail	
	address in Installation Information.	
12000	There is no issued license record.	
13000	Exceed available activation count.	
14000	Error occurs during issuing Activation key.	
15000	There is no License key and Hardware unique	
	information.	
16000	This request is only possible for the Server type	
	product.(ChangeActivation Request)	
19000	An error occurred while processing	
19001	This hardware is already activated.	

19002	No Activation data	
19004	Product selling type is not In-house.	
19006	Updated version data not found.
